Course Types – Academic vs. Applied

- Choosing the appropriate course type can be a difficult decision. Questions about course types and possible changes should be made in consultation with the guidance counsellor. Consider the following tips and facts:
 - There is a growing demand for people in the skilled trades (college/apprenticeship pathways)
 - There are many ways to transfer from college to university (ontransfer.ca)
 - All university programs require academic English.
 - Not all university programs require academic Math or Science.
 - Find the balance between being challenged and being successful.

Grade 10 Course Selection

- Most courses in grade 10 are compulsory; meaning they are a requirement for the OSSD.
- Note that some courses have already been circled. In those cases, all students will be taking the same course at the same level.

Circle ONE course in each remaining row.

First Semester:

1	Art Open (AVI2O)		
2	French* Academic (FSF2D)	Exploring Technologies Open (TIJ1O)	
3	Physical Education – Boys Open (PPL2O)	Canadian Geography – Girls Academic (CGC1D)	Canadian Geography – Girls Applied (CGC1P)

4	Science* Academic (SNC2D)	Science Applied (SNC2P)	

* Courses marked with an asterisk require a prerequisite of the same course taken at the academic level in grade 9

Additional Credits and Learning Opportunities (optional):

_____ Sr. Band (Tues. and Thurs. before school - 1 credit)

_____ Jazz Band (Wed. after school – 0.5 credit)

_____ Summer School Course (1 credit)

Why take a summer school course?

1) To obtain an additional credit. 2) To take a course not offered at DCHS. 3) To retake a course that you passed but want to improve the grade. 4) To recover a credit for a course that you did not pass (must have a mark between 35 and 49%)

* Please do not hesitate to contact Mr. Hamelinck to ask questions or schedule a meeting.
